2006 Action Plan

The Action Plan is that portion of the Consolidated Plan that is prepared each year as the grant application for the CDBG, HOME, and ESG programs. The purpose of the Action Plan is to identify the various federal and state resources that might be expected to be available to address the priority housing and non-housing community development needs and objectives in the Strategic Plan section of the Consolidated Plan. In addition, the Action Plan describes how funds will be distributed through the CDBG, HOME, and ESG programs; the activities planned for homeless and other special needs persons; other actions required by HUD; and the short-term non-housing objectives for each planning region in the state. The Action Plan contains only summaries of the CDBG, HOME, and ESGP programs. For more detailed information refer to pages 36 and 37 of the Action Plan for access to applicable websites.

Federal Resources

The following Federal resources are expected to be available to address statewide housing and non-housing needs:

1. Community Development Block Grant (CDBG) program, except in the entitlement cities of Bismarck and Grand Forks.
2. HOME program
3. Emergency Shelter Grants (ESG) program
4. Shelter Plus Care program
5. Low-income Housing Tax Credit program
6. Department of Energy Weatherization program
7. USDA Rural Development programs
8. Community Services Block Grant program

The Federal resources listed have limited funds available so the programs, when administered by the state, are generally designed to require the use of other funds to complete projects. For instance, all CDBG economic development projects require, by design, a 50 percent match of other funds. For CDBG public facilities projects, the Regional Councils generally require some percentage of other funds. Administrative costs that are required to be matched for the CDBG and HOME programs are included in the Division of Community Services budget.

State Resources

The following state resources are expected to be used to address statewide housing needs:

1. Home Mortgage Finance program (First Time Homebuyers program)
2. START Downpayment Assistance program
3. Helping Hands Across North Dakota program for housing
4. State Revolving Fund program for waste water systems

Activities

In this section we are required to describe how the state will distribute funds from the CDBG, HOME, and ESG programs to local governments and non-profit organizations, and how the proposed distribution of funds will address the priority needs and objectives described in the Consolidated Plan.

To distribute the CDBG funds, the state provides an allocation of funds to each of the state's eight Regional Planning Councils to recommend grant awards on a competitive basis. Each Regional Council is responsible for developing a program distribution statement describing how it will award funds. The state's role is to provide overall direction for the CDBG program and to review each project for compliance with the state CDBG Program Distribution Statement and the respective regional program statement. In addition, a set-aside is available for the Governor to fund economic development projects in coordination with the Regional Councils. For the HOME program, funds will be allocated to each of the state's seven Community Action Agencies, to the North Dakota Housing Finance Agency, two Community Development Housing Organizations, and the cities of Bismarck and Grand Forks. Funds from the ESG program will be distributed on a competitive basis to the emergency shelters. More detailed information for accessing and awarding funds under these three programs may be found on the Division of Community Services web site.

The criteria for approving projects under the CDBG program for each Region are based directly on the state's affordable housing goals and long-term non-housing community development objectives, emphasizing all needs identified as a high priority and primary benefit to households of 0 to 51 percent MFI. The HOME program is designed to achieve the affordable housing goals identified in the Strategic Plan, and the ESG program is focused on providing funds to each emergency shelter and the prevention of homelessness.

The following provides an overview description of each program:

COMMUNITY DEVELOPMENT BLOCK GRANT SUMMARY

The purpose of the Community Development Block Grant (CDBG) Program Distribution Statement is to describe how the state of North Dakota intends to distribute its CDBG Public Facilities, Housing and Economic Development funds.

To better address local community development needs, the Governor has directed that the State's allocation be divided among each of the eight Regional Planning Councils that have established procedures to review and rank applications submitted within their respective regions.

Program Goals and Objectives

HOME PROGRAM SUMMARY

The Department of Housing and Urban Development (HUD) has designated the State of North Dakota as a participating jurisdiction (PJ) and as such it may apply for and distribute HOME funds. The agency responsible for administration of the North Dakota HOME Program is the Department of Commerce, Division of Community Services (DCS).

The State plans to distribute its FY2006 HOME program allocation in accordance with its Action Plan, a requirement of the National Affordable Housing Act of 1990, HOME Rule at 24 CFR 92 and 24 CFR part 91. The State will use its HOME funds for the following activities to help meet the housing needs identified in the State Action Plan:

- Rehabilitation of Owner-occupied and Rental Property
- Homebuyer Assistance
- Refinancing of Homeowner-occupied Housing
- Tenant Based Rental Assistance (to include security and utility deposits)
- Acquisition, Site Improvements, or Demolition Linked to a Project
- New Construction
- Administrative Costs
- Operating Expenses for Multi-Regional Community Housing Development Organizations (CHDOs)

DISTRIBUTION PLAN

The State will administer its program through agreements with CHDOs, State Recipients (Fargo, Bismarck and Grand Forks), and Sub recipients. The HOME Program will be allocated on non-competitive set-asides based on priority needs as established by the statewide housing needs assessment and local established needs. Set-asides will be awarded based on regional, multi-regional or statewide plans.

Relocation is the only allowed activity in a designated flood plain under the State's multi-year environmental review. Local governments may complete their own Environmental Reviews and make their own flood plain determinations on a case-by-case basis.

All recipients are expected to locally meet the HOME Program match requirement of 25 percent unless specifically waived by the DCS. Existing general waivers include a state policy that homeowner rehabilitation and TBRA activities will be match free.

Only the forms of HOME assistance listed in Part 92.205(b) will be allowed. Applicants may use private funds, tax credits, Rural Development, Federal Home Loan Bank, CDBG, Department of Energy, or other grant/loan programs to help leverage HOME activities. The State may reallocate funds from one category to another because of unexpected demand, an emergency due to a natural disaster or determinations that performance based measures have not been met.

The North Dakota HOME Program will include the following components:

1. Community Housing Development Organizations (CHDOs)

HOME funds will be reserved for two Multi-Regional Community Housing Development Organizations (CHDOs). A Multi-Regional CHDO is a nonprofit agency that meets the CHDO requirements as defined in HOME program regulations. The Western Multi-Regional CHDO will cover planning regions I, II, VII and VIII. The Eastern Multi-Regional CHDO will cover planning regions III, IV, V and VI. Each Multi-Regional CHDO board must consist of representation from all four regions in its jurisdiction.

To access the Multi-Regional CHDO set-aside, interested parties would contact and partner with either the Affordable Housing Developers Inc in planning regions I, II, VII and VIII or the Eastern Dakota Housing Alliance in planning regions III, IV, V and VI. These two entities will have equal access to each fiscal year's CHDO allocation and will be eligible for the operating set-aside.

Up to ten percent of each Multi-Regional CHDO set-aside may be used for pre-development loans to assist specific projects. Predevelopment loan repayments must be sent to the DCS. The repaid funds will be added to the next FY allocation. Each Multi-Regional CHDO must have a scoring criteria developed that is consistent with the States Consolidated Plan.

The application process will be a two stage process.

- a. Submission of a Multi-Regional CHDO Plan(s) by **March 1, 2006**.
- b. Submission of the final CHDO Application(s) by **December 1, 2006**.

2. State Recipient Set-Aside

HOME allocations have been set-aside for the two communities (Bismarck and Grand Forks) that are entitlement cities, but not PJ's. This program component is non-competitive, and each city will be eligible to apply for a predetermined amount of funding based on population, number or percentage of low income households, and housing needs. Although these cities will be able to design their projects to meet local needs, all activities must be within the parameters of the State HOME Program. **Each city must submit a plan by March 1, 2006.** This plan will reserve their set-aside funds. The city must submit the final **Rental Project Application(s)** for review, a certification of CP compliance and the IDIS set-up before HOME funds will be committed. Submission of the final **Rental Application(s)** must be received by **December 1, 2006**.

3. Sub recipient Set-Aside

HOME funds will be set-aside for the Housing Finance Agency, Cass and Stutsman County Housing Authorities and the seven Community Action Agencies. These funds will be used to complete activities in their jurisdiction that are consistent with the State's Consolidated Plan and are a priority for their area. **All annual plans must be submitted to the DCS no later than March 1, 2006.**

4. Administration

The State as the Participating Jurisdiction, state recipients, and sub recipient will be allowed to receive HOME monies for administrative expenses. These costs may not exceed ten percent of the entire HOME allocation for North Dakota.

5. American Dream Downpayment Initiative (ADDI)

Program Description:

In an effort to increase the overall homeownership rate, HUD has proposed the American Dream Downpayment Initiative (ADDI). Amounts made available under this program may be used only for downpayment assistance toward the purchase of single family housing by eligible families. The ADDI funds will be administered as a part of the HOME Investment Partnerships Program (HOME). Recipients of these grant funds are required to be first-time home buyers and must have an annual income that does not exceed 80% of the area median income. The amount of assistance provided to any eligible family cannot exceed 6 percent of the purchase price of a single family housing unit, or \$10,000, which ever is greater.

Application Process:

Entities eligible for the ADDI funding include the cities of Fargo, Grand Forks and the North Dakota Housing Finance Agency.

For a recipient to receive a grant under this program (if appropriated by HUD), they must submit a plan to the Division of Community Services (DCS) no later than March 1, 2006.

6. Estimated Summary of Funding:

2006 HOME Program Funding	\$ 3,001,389
2006 HOME Program Income	\$ 72,983.35
2006 ADDI Funds	\$63,695

7. HOME Goals

The HOME program focuses on four major housing needs;

1. Single Family Rehabilitation
2. Homeowner Assistance
3. Rental Production and Rehabilitation
4. Tenant Based Rental Assistance

Each of these needs is considered high priority needs for use of HOME funds. These needs are addressed and prioritized locally by set-asides made by the Division of Community Services to their grantees. Each grantee delivers the HOME program in their region, city or multiple regions. Based on past activities completed with HOME funds and changes in program needs, the State has established the following goals for 2006. Each year the State will review the needs and completed goals and make a determination if the goals should be changed based on new developments that have created different needs around the state.

Total 215 Owner Goals		190	18	18	8	41	36	6	46	17	

The special needs populations will be assisted with our general set-asides. The state request that each grantee prioritize special needs populations such as the elderly and disabled populations. The state also requires each grantee to reach as many very low income families as possible. Due to changing regulations, changes in HUD funding, and changes in local needs determinations, goals best reflect the need at a given point in time.

8. HOME Performance Measures

HUD has written the Final Notice (draft) for Outcome Performance Measurements Systems for Community Planning and Development Formula Grant Programs. The HOME Program will be collecting performance data on HOMENet as soon as the program has been updated (expected in Summer of 2006). Grantees will be required to report performance data for all open activities at that time. The performance data will consists of entering one of three **objectives** for the program; Suitable Living Environment, Decent Housing, and Creating Economic Opportunities. An appropriate **outcome** will also be required; Availability/Accessibility, Affordability, or Sustainability. Based on the objectives and outcomes selected, the system will populate the specific **output indicators** for each activity. You will be required to complete the requested information in the output indicators. DCS will be providing additional training in Performance Measurements to all grantees in 2006.

EMERGENCY SHELTER GRANTS PROGRAM SUMMARY

The State of North Dakota will distribute its anticipated FY2006 Emergency Shelter Grants Program (ESGP) allocation of \$275,592 through a competitive grant application process. Communities of 2,500 or more populations will be targeted since those are the communities experiencing the greatest need to provide services and facilities for the assistance to the homeless and potentially homeless. Nonprofit entities located on Indian reservations are eligible to receive funds through the community in which they are located. The Division of Community Services (DCS) will review and prioritize all applications based on the ability to achieve the following state program objectives:

- To fund projects that encourages the use of program funds to complement the use of other public and private funds in providing assistance to the homeless.
- To fund projects which document and address shortages in funding, facilities, and services to the homeless, and which encourage and demonstrate maximum coordination of services and programs within the community.
- To fund projects which document participation in region wide or statewide continuum of care process.
- To fund projects which can be completed in a timely manner, within budget, and in conformance with all applicable federal and state requirements.
- To fund projects which involve, to the maximum extent practicable, homeless individuals and families in constructing, renovating, maintaining, and operating facilities assisted under the ESGP, and in providing service for occupants of these facilities.

The maximum amount of funds that will be made available to any one homeless facility or agency providing assistance to the homeless is \$25,000. The DCS may set-aside 20 percent (\$55,000) of its allocation to fund homeless prevention activities and/or essential services based on the DCS's evaluation of need.

Applicants for the Emergency Shelter Grants Program are Units of Local Government, and eligible nonprofit organizations. Eligible nonprofit organizations may apply directly to the DCS, with a certification of approval of the project by the unit of local government in which they are located. Applications will be solicited directly from all shelter programs, and units of local government, in the state.

During the 2006 program year, any returned funds will be disbursed in a manner which will take into consideration the greatest areas of unfunded need among the remaining programs.

It is anticipated that applications will be requested for submission to the Division of Community Services by April 30, 2006.

Geographic Distribution

The HOME and ESG program funds will be available to eligible applicants statewide. The CDBG program is available to eligible applicants in every city and county, except the three entitlement cities of Grand Forks, Fargo, and Bismarck.

Homeless and Other Special Needs Activities

Homeless Activities for 2006 Include:

1. Awarding of funds to the state's emergency shelters and other non-profit organizations to provide shelter, services, and homeless prevention activities.
2. Beginning the development of a ten year plan to end chronic homelessness.
3. Continue assistance to the Homeless Coalition on the statewide continuum of care plan.
4. Continue to promote the usage of the statewide Homeless Management Information System (HMIS).
5. Pursue additional Shelter Plus Care grants for homeless individuals and families with disabilities.

Other Special Needs Activities:

As indicated in the Strategic Plan section of the Consolidated Plan, no specific activities are planned during the 2005 -2009 Consolidated Plan years, other than under the affordable housing goals, to address the needs of non-homeless special needs persons. Other state agencies currently administer programs specifically for the elderly, frail elderly, persons with disabilities, developmentally disabled, alcohol and drug abuse persons, and persons with HIV/AIDS, and the demand for CDBG and HOME funds for other needs far exceeds the capability to further target the use of funds.

Obstacles to Meeting Underserved Needs

The major obstacle to meeting underserved needs is the small amount of funds the state receives through the CDBG, HOME, and ESG programs. The needs far exceed the ability of these programs to make any significant impact, which is why the state continues to fund the same type of housing and non-housing activities each year. Housing rehabilitation continues to be a high priority need, but the interest in doing more rehabilitation is severely hampered by the lead-based paint requirements. Costs to investigate and mitigate lead-based paint are very high and the lack of funds means fewer opportunities for rehabilitation. Since there is nothing we can do to change either of these problems, no actions are planned.

Foster and Maintain Affordable Housing

During the 2006 program year we will continue to promote targeting CDBG and HOME funds to households of 0 to 30 percent of the MFI, persons with disabilities, the elderly, and minorities, focusing primarily on housing rehabilitation and assistance in buying or renting affordable housing.

Removal of Barriers to Affordable Housing

The Statewide Housing Needs Assessment indicated that some leaders view zoning, size of lots, cost of development, availability of infrastructure, restrictions regarding development of multi-family units, development of agricultural land, and the need for stricter codes to improve property values and pride in ownership as potential barriers to creating housing. These are primarily local issues over which the state has little or no authority. However, we do have a state building code and we will continue to promote its adoption and enforcement and continue to provide training support to local building officials through the North Dakota Building Officials Association. In addition, we will promote the use of CDBG and HOME funds for development whenever it becomes a potential.

Lead-based Paint

During this program year we will continue working with the North Dakota State Health Department and the University of North Dakota to provide training for lead-based paint risk assessors. In addition, we expect to see more coordination with the Community Action Agencies to increase the amount of lead-based paint testing activities.

Institutional Structure

As previously noted, we do not believe that there are any gaps in the current institutional structure for the delivery of programs that need to be addressed.

Coordination Efforts

As previously noted, we believe that good coordination of programs is occurring and that no specific additional actions are required.

Fair Housing

We reviewed the state's Analysis of Impediments to Fair Housing and have determined that the findings are still applicable. During the 2006 program year, we will continue to promote the adoption and enforcement of the State Building Code. The code was updated effective October 1, 2004, and now contains provisions for fair housing design that are considered by HUD to meet the requirements of the design standards under the Federal Fair Housing Act. Each community that receives CDBG funds will be required to identify at least one fair housing activity to undertake in conjunction with its grant award. We will continue, as shown in our affordable housing goals, to emphasize targeting funds to low income households, persons with disabilities, and minorities.

Anti-Poverty

The primary activities will be to create jobs with CDBG funds, encourage referrals of low-income persons and families to the Self-Reliance program (although no data can be obtained showing referrals because of confidentiality), and, as reflected in our affordable housing goals, to target HOME and CDBG funds to low-income households.

Faith-Based Organization

This section describes the objectives of HUD’s new faith-based regulations found in 24 CFR Part 92 dated September 30, 2003.

Objective 1: Make clear that organizations are eligible to participate in the eight listed HUD programs without regard to their religious character or affiliation.

Objective 2: Make clear that an organization participating in any of the eight listed HUD programs may not use direct HUD funds to support inherently religious activities.

Objective 3: Make clear that a religious organization that participates in any of the eight listed HUD programs will retain its independence.

CDBG funds may not be used for acquisition, construction, or rehabilitation of structures to the extent that those structures are used for inherently religious activities. CDBG funds may be used for the acquisition, construction, or rehabilitation of structures only to the extent that those structures are used for conducting eligible activities under the regulations.

Where a structure is used for both eligible and inherently religious activities, CDBG funds may not exceed the cost of those portions of the acquisition, construction, or rehabilitation that are attributable to eligible activities in accordance with the cost accounting requirements applicable to CDBG funds in this part. Sanctuaries, chapels, or other rooms that a CDBG-funded religious congregation uses as its principal place of worship, however, are ineligible for CDBG-funded improvements.

Monitoring

In this section we are required to describe how the state will monitor the activities carried out to achieve the goals of the Strategic Plan.

Monitoring will be the responsibility of the staff assigned to the CDBG, HOME, and ESG programs and the organizations that partner with the Division of Community Services to implement these programs. This will primarily be accomplished through quarterly and final reports on each funded project. To assure long-term compliance with program requirements, staff will do on-site monitoring of files and each completed project using a systems review of the implementing organizations. Staff will also perform desk-top monitoring using drawdown requests, environmental review notices, Section 504 Self-evaluations, and the Integrated Disbursement Information System (IDIS).

The State certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR §91.115 and each unit of general local government that receives assistance from the State is or will be following a detailed citizen participation plan that satisfies the requirements of 24 CFR §570.486.

Consultation with Local Governments -- It has or will comply with the following:

1. It has consulted with affected units of local government in the nonentitlement area of the State in determining the method of distribution of funding;
2. It engages in or will engage in planning for community development activities;
3. It provides or will provide technical assistance to units of local government in connection with community development programs; and
4. It will not refuse to distribute funds to any unit of general local government on the basis of the particular eligible activity selected by the unit of general local government to meet its community development needs, except that a State is not prevented from establishing priorities in distributing funding on the basis of the activities selected.

Local Needs Identification -- It will require each unit of general local government to be funded to identify its community development and housing needs, including the needs of low-income and moderate-income families, and the activities to be undertaken to meet these needs.

Community Development Plan -- Its consolidated housing and community development plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objectives of Title I of the Housing and Community Development Act of 1974, as amended. (See 24 CFR 570.2 and 24 CFR part 570)

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it certifies that it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low and moderate income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available);
2. Overall Benefit. The aggregate use of CDBG funds including section 108 guaranteed loans during program year(s) 2005, 2006, and 2007 (a period specified by the grantee consisting of one, two, or three specific consecutive program years), shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period;
3. Special Assessments. The state will require units of general local government that receive CDBG funds to certify to the following:

It will not attempt to recover any capital costs of public improvements assisted with CDBG funds including Section 108 loan guaranteed funds by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

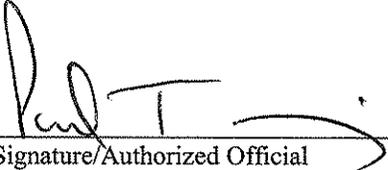

It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108, unless CDBG funds are used to pay the proportion of fee or assessment attributable to the capital costs of public improvements financed from other revenue sources. In this case, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds. Also, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

INSTRUCTIONS CONCERNING LOBBYING AND DRUG-FREE WORKPLACE REQUIREMENTS:

A. Lobbying Certification

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

B. Drug-Free Workplace Certification

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification.
2. The certification is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HUD, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio stations).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
